SPAZIOC21 in Reggio Emilia is hosting the exhibition "E35 to C21" from September 26 to November 14, 2026, at Palazzo Brami. The show explores the evolution of graffiti culture by featuring works from Dutch and Italian artists including Mick La Rock, Niels Shoe Meulman, Zedz, Stefano Pane Monfeli, Antigoon, and Albertism, with critical commentary provided by Chinny Bond.

This exhibition is significant for its examination of how street-based practices transition into studio, gallery, and installation contexts. By highlighting the shift from urban lettering to geometric abstraction, architectural structures, and experimental media, the project challenges the generic "street art" label and documents the sophisticated formal development of artists who emerged from graffiti scenes in the Netherlands and Italy.
